

WOODHOUSE
SHOW AND EVENT SPECIALISTS

Temporary Barn Stables

Woodhouse continues to innovate and supply quality temporary stabling barns for equestrian shows and events nationwide, as it has done for over 70 years.

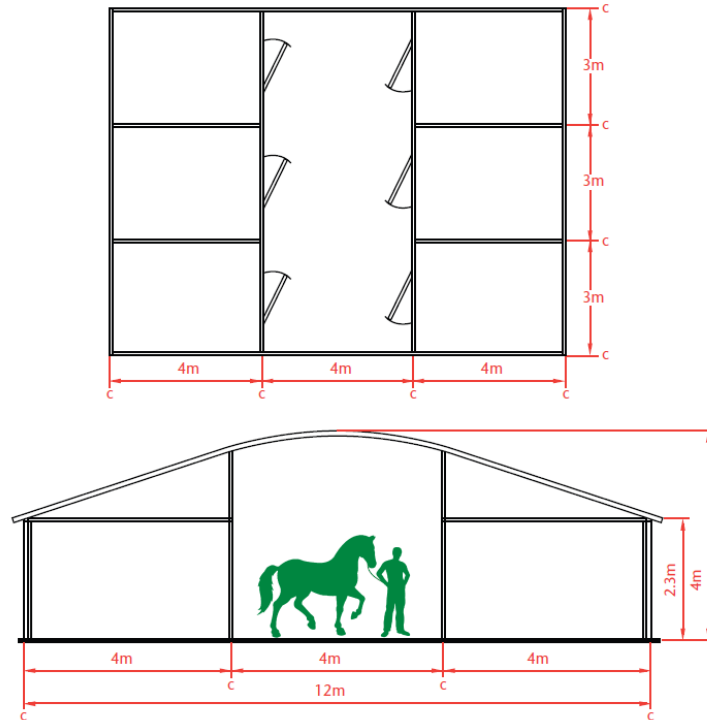

Our latest hardwall Quickstable barns offer modern, robust, all weather stabling which is **dry, bright and well-ventilated** and offer significant health and safety benefits for the horses, grooms and competitors alike. High demand for this new product ensures our continuing investment to increase our current hire stock of 300 units.

All of our specialist hire equipment is erected and dismantled by Woodhouse **installation teams** and our **dedicated and experienced on-site installation supervisors** ensure that the **MUTAmarq** best practise industry standards are followed every step of the way.

See overleaf for our Technical Specification

Overall Dimensions

Features

- 3m x 4m hardwall (plastic) Quickstables
- Generous 4m wide aisles
- Overheight 2.3m partitions
- Nail-free and splinter-resistant partitions
- Constructed from double-walled recycled HDPE panels
- Curved 12m Clearspan[®] roof
- Flame retardant PVC roof covers

Benefits

- Generous dimensions exceeds present FEI recommendations
- Improves accessibility and facilitates tack storage
- Reduces potential for inter-stable horse-to-horse contact
- Minimises 'kick-through' potential
- Engineered to reduce wind resistance
- High structural stability
- Consistent ventilation
- Compliant with UK Standards and the independent MUTAmarq inspectorate recommendations.
- Recommended by the Performance Textiles Association, the professional trade body with over 90 years industry experience
